

GTRx Delivers a
Smoother Patient Experience
\$8k Saved Every 3 Months
on Inflectra Infusions

**The
Challenge**

Inflectra, a high-cost infusion treatment for Crohn's Disease, poses challenges for Third-Party Administrators (TPAs), employers, and patients due to cost considerations and patient comfort concerns. Balancing affordability with quality care requires careful planning to optimize treatment outcomes while minimizing financial burden.

**The
Solution**

Through a partnership with Metro Infusion Center, the GTRx Specialty Pharmacy NetworkSM significantly reduces plan costs for stakeholders and patients who need Inflectra treatments.

**The
Result**

For one client, GTRx helps save, **on average, \$8,000 every three months**. By receiving safe, affordable infusion treatments at Metro Infusion Centers, the client and employee medical spending was reduced hassle-free.
